- Surface or embedded mount
- Table top slats are 2.5x3.5 HDPE profiles
- Rounded seat edges protect users
- Steel structural components
- Standard size is 38" square
- Custom sizes available
- ADA version available (3 seats)

RecycleDesign™ is a registered trademark for site amenities manufactured and marketed worldwide. TRIMAX™ HDPE is a proprietary branded compound used exclusively for the extruded planks used in RecycleDesign™ products.

TRIMAX™ Planks are made of recycled, high density polyethylene lumber. The product is composed of 100% recycled HDPE, derived from purified milk bottle waste, combined with UV-inhibited pigment systems as well as other process additives. TRIMAX™ HDPE lumber is made from a single, purified polymer and is manufactured to consistent, reproducible standards.

TRIMAX™ HDPE is very resistant to moisture and is warranted not to rot, splinter, crack or peel. Waterproofing or staining is neither required nor recommended.

Powdercoat product finishing systems used with RecycleDesign™ products are 100% solids and contain no volatile organic compounds. The Powdercoat resin system is polyester, a weatherable and durable material suited for exterior use.

Powder Colors

Trimax™ Colors

Printed colors will vary from actual materials. Color samples are available upon request.
